PROOF READING:

Full proof reading and editing service - We offer proof reading for any subject. Basic proof reading covers 3 main aspects: spelling, punctuation and grammar. The price is calculated according to the number of words. The amount we charge for basic proof reading is 0.007 pence per word, i.e. for 12,000 words we would charge £84.

If more thorough revision is required, we would recommend our editing service.

This involves looking at more detailed aspects such as sentence structure, checking for repetition and replacing words with more appropriate words. This is usually charged at 50% of the basic proof reading cost, i.e. for 12,000 words, it would cost £84 for proof reading and a further £42 for editing, giving a total cost of £126.
